

## HG412 Speaker Cabinet w/ 4x12" Speakers

More is more! The HG412 is built using historic Hiwatt construction methods and dimensions that can withstand years of touring as well as handle the extreme SPL's (sound pressure levels) our Hi-Wattage Speakers produce. Loaded with a quartet of Hiwatt Octapulse 12 inch speakers for extra bark and bite, these Hiwatt cabinets deliver professional quality amplification at affordable prices.

## **Feature Overview**

- 16 ohm impedance.
- 4 x 150 watt F150-12 speakers deliver clear, clean tone at high volumes
- British Engineered
- Birch ply construction for durability and sonic stability.
