

Leeds 50R Head

50W 2-Channel Head w/ Spring Reverb

Named after one of the most legendary live recordings in rock music, the Leeds 50 delivers classic Hiwatt tone using the chewy goodness of our carefully voiced analog MOSFET preamp paired with a beefy power amp. Designed for extended low output and precise response. Two channels with dedicated EQ sections to sculpt your tone, backed up with real spring reverb and FX loop for ambience.

Feature Overview

- Clean and Overdrive Channels
- Independent 3 band EQ for both channels.
- Real spring reverb and FX loop.
- Switchable operating voltage for worldwide use.
- British Engineered
- Birch ply construction for durability and sonic stability.
