

HANDWIRED

SB-112

1x12" Style B Straight Cab

The difference between sounding good and sounding great might just be your Speaker Cab. Often overlooked but just as important as a great amplifier and guitar/bass, is the Cab you are playing through. Historic Park construction methods and dimensions can withstand decades of touring. Park Cabinets are Engineered to resonate 'in all the best ways', making an important contribution to the overall tone produced.

Feature Overview

- Historical dimensions and materials used for sonic integrity.
- Authentic straight 'B Style' Cabinet.
- 112 standard with a Creamback (65 watts power handling) or optional Greenback (25 watts)
- 16 Ohm Cab
